INDEX TO VOLUME CI.

Abbot, S. L. Acute sciatica and facial neuralgia, treatment by salicylic acid and salicylate of soda, 83; accidental intra-uterine injection, 523.

Abbott, S. W. The evidence of still-birth, 259, 296, 329; opium habit, 272.

Adams, B. F. D. Paralysis of the bladder, 56.

Allen, D. P. Three cases of scarlatina with eighteen of sympathetic sore throat, 540.

Allen, N. Changes in medical practice, 472.

Amory, R. Recent progress in therapeutics, 407, 443.

Anatomy. Anatomy of the skin, Warren, J. C., 660; recent progress in anatomy, Dwight, T., 370.

Anderson, C. L. Santa Cruz, Cal., in regard to health, 493.

Army. Opinion on Dr. Hammond's case, McCrary, G. W., 462.

Ayer, J. Cases of midwifery, 23; a partial review of two thousand cases of midwifery, 8 9, 809.

Ayer, J. B. Tubercular meningitis, 663.

Baker, L. J. Absence of the lochial discharge, 566.

Baker, L. M. Alcohol, 161.

Baker, W. H. Recent progress in gynæcology, 51; cancer of the uterus, 665; dermoid cyst of the ovary, 686.

Baldwin, J. F. Objections to the metric system, 341.

Barss, J. R. A case of cystotomy for cystitis, 597.

Beach, H. H. A. Perforation of the bladder through the rectum, 878.

Becker, A. R. The nature of the diphtheritic poison, 424.

Bibliography. Fox, G. H., Photographic Illustrations of Skin Diseases, 27; Connecticut Training School for Nurses, A Handbook of Nursing for Family and General Use, 27; Shaffer, N. M., Pott's Disease, its Pathology and Mechanical Treatment, with Remarks on Rotary Lateral Curvature, 28; The Wisconsin Board of Health Report, 29; Garnier, M. P., Dictionnaire annuel des Progrès des Sciences et Institutions médicales, 62; Hammond, W. A., Fasting Girls, their Physiology and Pathology, 95; American Gynecological Society, Transactions, vol. iii., 127; Bennett, J. H., On the Treatment of Pulmonary Consumption by Hygiene, Climate, and Medicine, 129; Macnamara, C., Clinical Lectures on Diseases of Bone, 130; Popular Sanitary Literature, Health Primers, 131; McSherry R., Health and How to Promote It, 131; Habershon, S. O., On Diseases of the Abdomen, 131; Ellis, G. V., Demonstrations of Anatomy, 166; Bennett, C. H., Hearing and How to Keep It, 166; Ellis, E., Practical Manual of the Diseases of children, 201; Stillé, A., and Maisch, J. M., The National Dispensatory, 259; Klein, E., and Smith, E. N., Atlas of Histology, 241; Shakspeare, E. O., The Healing of Arteries, 242; Jeffries, B. C., Lecture Notes on Chemical Physiology and Pathology, 417; Pathological Society of Philadelphia, Transactions, vol. viii., 417; Bryant, T., a Manual for the Practice of Surgery, 453; Lucas-Championnière, J., Le Trépanation guide par les Localisations cérébrales, 453; Tanner, T. H., Memoranda on Poisons, 454; Bucknill, J. C., and Tuke, D. H., a Manual of Psychological Medicine, 485; Dedication of the New Library Hall of the New York Academy of Medicine, 525, 550; Rafinesque, F. G., Etude sur les Invaginations intestinales chroniques, 556; Flint, A., Clinical Medicine, 630; Adams, W., Observations on Contraction of the Fingers (Dupuytren's Contraction) and its Successful Treatment, 630; Heath, C., a Guide to Surgical Diagnosis, 665; Langley, E., Student's Pocket Medical Lexicon, 666; Bristowe, J. S., et al., Diseases of the Intestines and Peritonæum, 666; Skene, A. J. C., Diseases of the Bladder and Urethra in Women, 667; Stillé, A., and Maisch, J., The National Dispensatory, 668; Kidd, J., The Laws of Therapeutics, 669; Klein, E., and Smith, E. N., Atlas of Histology, Parts vi., vii., vii., 698; Buck, A. H., A Treatise on Hygiene and Public Health, 699; Dowse, T. S., Syphilis of the Brain and Spinal Cord, 700; Brown, G., Aids to Anatomy, 701; New York Obstetrical Society, Transactions, vol. i., 701; Bartholow, R., The Treatment of Diseases by the Hypodermic Method, 739; Habershon, S. O., On Diseases of the Stomach, 740; Cohen, J. S., Diseases of the Throat and Nasal Passages, 774; Seiler, C., Handbook of Diagnosis and Treatment of Diseases of the Throat and Nasal Cavities, 774; Leishman, W., A System of Midwifery, 775; Fox, G. H., Photographic Illustrations of Skin Diseases, 815; Richet, C., Physiology and Histology of the Cerebral Convolutions; also, Poisons of the Intellect, 815; Health Primers: The Skin and its Troubles, 816; Gross, S. D., Memorial Oration in honor of Ephraim McDowell, "the Father of Ovariotomy," 886; Goodell, W., The Extirpation of the Ovaries for some of the Disorders of Menstrual Life, 886; Criticisms on the "make up" of medical journals, 891; Goodell, W., Lessons in Gynæcology, 920.

Bigelow, H. J. Litholapaxy, 539.

Bigelow, W. S. Sarcoma of leg, 23.

Billings, F. S. Veterinary medicine, 597.

Biography. Abernethy, J. J., 746; Bumstead, F. J., 821; Callender, G. W., 634; Chapman, H. C., 747; Draper, L. J., 459; Drury, S. S., 600; Holmes, O. W., 385, 850; Meigs, J. A., 742; Moseley, W. O., Jr., 316; Nichols, J. D., 496; Perry, G. B., 570; Peugnet, E., 600; Phelps, T., 496; Porter, F. G., 751; Smith, C. B., 570; Smith, J. V. C., 318; Wales, P. S., 606; White, O., 746; Williams, S., 530.

Bixby, G. H. Fibrous tumor of the uterus healed by electrolysis, 594.

Blackmer, J. Abdominal wound, with protrusion of the omentum, 36.
Blaisdell, W. C. Old impacted fracture and dislocation of the femur, 24.
Bolles, W. P. Guarana, 198; case of typhoid fever, collapse, resuscitation by atropia given subcutaneously, 736.
Bowditch, H. I. The medical education of women, 67; the National Board of Health, 421; sanitary organization of nations, 884.
Bowditch, H. P. Apparatus for plethysmographic measurements, 197; influence of respiration upon the pulmonary circulation, 199.
Bowers, W. P. A case of chronic catarrhal pneumonia, 48, 78.
Bradford, E. H. Recent progress in orthopedic surgery, 545; infantile paralysis, 627; club-foot cured by mechanical treatment alone, 662; anchylosis of the vertebræ following gonorrheal rheumatism, 698; surgical cases at the children's hospital, 706.
Brown, B. Hints on the diagnosis and treatment of club-foot, 715.
Brown, F. F. Drunkenness in parents, 271.
Brown, W. S. Iliac inflammation in a male, 271; skin-grafting, 820.
Buckler, T. H. A plea for the lancet, 433; a medical reclamation from the domain of surgery, 583.

Cabell, J. L. The National Board of Health, 710.
Cabot, A. T. Cases of osteoclasis, 217; experiments upon the strength of antiseptics, 735.
Cabot, S. Bone fractured by the osteoclast to correct the deformity of rickets, 311; the admission of women to the Massachusetts Medical Society, 679.
Carleton, C. G. A case of aconite poisoning, 544.
Caswell, E. T. Removal of a hair-pin from the female bladder, of a shawl-pin from the trachea, 47.
Channing, W. Care of the insane in Massachusetts, 709.
Chapin, H. The state almshouse at Tewksbury, 56.
Chemistry. Recent progress in medical chemistry, Hills, W. B., 267, 304.
Cheever, D. W. Clinical lecture, caries and amputation of the thigh, old dislocation of the thumb, fracture of the outer condyle of the humerus, and anchylosis, necrosis of ungual phalanx, hysteria, 1; clinical lecture, infantile paralysis, nasal polypi, growth in the antrum, talipes equinus with contracted knee and hip, carbuncle, 201; repair after excision of the hip, 310.
Chicago. Letter from Chicago, 69.
Child, W. Pseudo-hypertrophic paralysis, 288; lymphadenosis, with brown pigmentation of skin, 639. Gritti's supra-condyloid amputation of the thigh, 783.
Children. Recent progress in the treatment of children's diseases, Hayden, D. H., 87, 117; icterus neonatorum, Marble, J. O., 140; infantile paralysis, Cheever, D. W., 201; pad for umbilical hernia in infants, Hosmer, A., 594; infantile paralysis, Bradford, E. H., 627; empyæma in an infant aged thirteen months cured by aspiration, Hunt, J., 711; apoplexy in a boy fifteen years old, Tyrrill, 738.
Circulatory System. Probable aneurism of the abdominal aorta, Flint, A., 41; heart failure in a case of ascites and pleuritic effusion promptly relieved by the intravenous injection of ammonia, Flint, A., 43; hydroperitoneum and general dropsy in a case of complicated cardiac disease, Flint, A., 46; thrombosis following the operation for laceration of the cervix, Davenport, F. H., 161; cardiac hypertrophy and dilatation, with probable aneurism of the thoracic aorta, Loomis, A. L., 177; influence of respiration upon the pulmonary circulation, Bowditch, H. P., 199; structure and development of the torcular herophili, Dwight, T., 200; the healing of arteries, 242; rupture of the inter-ventricular system of the heart in consequence of external violence, Draper, F. W., 308; aneurism of the cardiac axis, Lyman, G. H., 309; a case supposed to be phlebitis of the lungs, Hosmer, A., 726; embolism of the pulmonary artery, Goss, F. W., 663; hæmatoma of the facial region, Jacobi, A., 675; thrombosis, Holton, 798.
Coggin, D. The significance of diplopia, 287.
Correspondence. Letter from Providence, 35; the medical education of women, 67; letter from Chicago, 69; letter from Vienna, Cæsarean section, Williams, H., I. O; letter from St. Louis, 210; letter from New Orleans, Herrick, S. S., 247; letter from Memphis, 378; pseudo-hypertrophic paralysis, Enquirer, 350; the National Board of Health, Bowditch, H. I., 421; the British Medical Association, 603; criticisms on the "make up" of medical journals, 891; the new anæsthetic, hodrobromic ether, 892; letter from St. Louis, 894.
Courtenay. Morphine poisoning, 709.
Cowdrey, A. B. Plaster-of-Paris jackets, 273.
Crain, H. P. Typhoid fever, 758.
Crehore, C. F. Flushing of soil-pipes and traps, 362.
Curtis, T. B. Recent progress in urinary surgery, 479.
Cutaneous System. Carbuncle, Cheever, D. W., 205; a contribution to the study of the ætiology of skin diseases, White, J. C., 571; lymphadenosis, with brown pigmentation of skin, Child, W., 639; anatomy of the skin, Warren, J. C., 669; recent progress in dermatology, White, J. C., 800, 833.
Cutler, E. G. The anatomical changes caused by septicæmia and pyæmia, 145.
Cutter, E. Excorlysis of uterine fibroids, 677.

Dale, J. T. The treatment of typhoid fever, 112.
Davenport, F. H. Case of thrombosis following the operation for laceration of the cervix, 161.
Derveer, A. Van. Report of eight cases of uterine fibroids, with remarks upon the same, 467, 518.
Digestive System. Sore throat, Wright, J. H., umbilical hernia, Warren, J. C., 73, on swallowing foreign bodies, Gallopine, L. F., 109; icterus neonatorum, Marble, J. O., 140; iliac inflammation, Brown, W. S., 271; recent progress in the treatment of diseases of the throat, Knight, F. I., 102, 234; growth in the antrum, Cheever, D. W., 203; A case of fatal ileo-cæcal intussusception, Starr, L., 450; three cases of scarlatina, with eighteen of sympathetic sore throat, Allen, D. P., 540; the Harvard Dental School, 558; a medical reclamation from the domain of surgery (gall-stones), Buckler, T. H., 583; pad for umbilical hernia in infants, Hosmer, A., 594; punctured wound of the abdomen and colon, Wright, T. R., 645; cases of intussusception, Whitney, J. O., 617; unusual vomiting, Pierce, J. G., 678; stricture of the œsophagus, Hodges, R. M., 698; abscess of the liver, Knight, F. I., 698; peritonitis, Nichols, S., 738; dissolution of gall-stones, 741; strangulated hernia unattended by the usual characteristic symptoms, Nichols, A. H., 847; direct inguinal hernia, Fifield, W. C. B., 880.
Dispensary, Boston. Report, 6 6.
Doe, O. W. Cancer of kidney, 112.
Draper, F. W. Rupture of the inter-ventricular septum of the heart in consequence of external violence, 308.
Dwight, T. Structure and development of the torcular herophili, 200; recent progress in anatomy, 370; are women eligible to the Massachusetts Medical Society, 709.

Ear. Function of the membrana tympani in informing us as to our position with regard to objects around us, James, W., 139; purulent inflammation of the middle ear, Green, J. O., 772; recent progress in otology, Green, J. O., 911.
Edes, R. T. A case of anterior spinal paralysis, with formation of vacuoles in the ganglion cells of the spinal cord, 105; fatal puerperal disease of doubtful character and origin, 626; sarcoma of the lumbar vertebræ, 661; Cheyne-Stokes respiration, 794.
Editorials. The tenth census, 29; The Wisconsin Board of Health report, 29; red caps and summer heat, 30; the value of society work, 63; yellow fever, 96; the national, state, and local boards of health, 131; lunacy reform, 167; free quinine, 168; quarantine versus disinfection, 206; the healing of arteries, 242; private asylums, 243; the Medical Register for New England, 243; the schools, 278; the discovery of anæsthesia, 315;

Great Britain and the United States, 348; Utica Lunatic Asylum, 379; the yellow fever in Memphis, 384; the demand for a national board of health, 418; the experiment at Zurich, 455; the Massachusetts Reformatory Prison for Women, 475, 486; medical education in New York, 487; the New Orleans Sanitary Association, 488; dedication of the new library hall of the New York Academy of Medicine, 525, 527; the admission of women to the State Society, 527; preliminary examinations, 528; the new treatment of stone, 557; the Harvard Dental School, 558; Mr. Bergh and New York vivisectionists, 559; veterinary medicine, 597; morphine poisoning, 631; the report of the Philadelphia Board of Health, 632; sudden death from injury, 633; the nature of malaria, 639; diphtheria in Pittsburg, 671; Dr. Lyon Playfair on public health, 702; the conference of health boards at Nashville, 703; Health Primers, 739; a circular from the Massachusetts State Board of Health, 740; a directory for nurses, 741; James Aitken Meigs, 742; anæsthesia under pressure, 776; Boston City Hospital Training School for Nurses, 815; the International Medical Congress at Amsterdam, 818; the meetings of the Public Health Association and of the National Board of Health at Nashville, 847; shall Lynn establish a board of health? 849; women and the medical society, 850; a revival in society work, 887; Memphis to be transformed, 888; the Lynn Health Board, 896; a review of the year, 922; a national health organization, 923.

Ellis, C. Dilated bronchi, 162; probable acute nephritis, 686; effusion of blood into the left hemisphere and lateral ventricle, 876.

Emerson, E. W. Rubber bandages, 57.

Eye. Treatment of color-blindness by the use of solution of fuchsine, Keeler, P. D., 70; De Beaut's colored psisms, Jeffries, B. J., 240; the significance of diplopia, Coggin, D., 287; optico-ciliary neurotomy, Wadsworth, O. F., 310, 773; color-blindness, Jeffries, B. J., 624; recent progress in ophthalmology, Wadsworth, O. F., 692.

Fifield, W. C. B. Direct inguinal hernia, 880.

Fisher, T. W. Recent progress in the treatment of mental diseases, 629, 655.

Fitz, R. H. Microscopic specimens from medulla oblongata of a patient who died of hydrophobia, 197; recent progress in pathology and pathological anatomy, 729, 766.

Flint, A. Clinical lecture. Probable aneurism of the abdominal aorta, heart failure in a case of ascites and pleuritic effusion promptly relieved by the intravenous injection of ammonia, hydroperitoneum and general dropsy in a case of complicated cardiac disease, with probable cirrhosis of the liver, 41.

Folsom, C. F. National Board of Health, 927.

Galloupe, I. F. On swallowing foreign bodies, 109.

Garland, G. M. Pharyngeal respiration, 198.

Gay, G. W. Surgical cases of Drs. Ingalls and Gay, 779.

Geddings, W. H. Notes on the summer climate of the White Mountain village of Bethlehem, 155.

General Diseases. Sarcoma of leg, Bigelow, W. S., 23; yellow fever, 96; Massachusetts General Hospital, cases of acute rheumatism in 1878-79, 134; yellow fever in the U. S. steamer Plymouth, 141; the treatment of typhoid fever, Dale, J. T., 112; anatomical changes caused by septicæmia and pyæmia, Cutler, E. G., 145; the malarial cachexia, Webster, J. O., 180; yellow fever in New York, 208; bone fractured by the osteoclast to correct the deformity of rickets, Cabot, S., 311; syphilitic necrosis of the frontal bone, Homans, C. D., 311; the communicable fevers and their treatment, Thomson, W. H., 323, 355; the yellow fever in Memphis, 384; clinical lectures on the physiological pathology of syphilis, Otis, F. N., 395, 427, 611, 643, 683; acute miliary tuberculosis of the uterine muscular tissue, Sabine, G. K., 201; excremental diseases, Waring, G. E., 222, 251; enteric fever, Winsor, F., 273; yellow fever, Herrick, S. S., 247, 288; cancer of kidney, Doe, O. W., 442; the nature of the diphtheritic poison, Becker, A. R., 424; one hundred and fifty cases of typhoid fever, Stedman, C. E., 499; three cases of scarlet fever with eighteen of sympathetic sore throat, Allen, D. P., 540; recent progress in syphilology, Wigglesworth, E., 588; hip disease, Putnam, C. P., 630; sarcoma of the lumbar vertebræ, Edes, R. T., 661; tubercular meningitis, Ayer, J. B., 663; diphtheria in Pittsburg, 671; anchylosis of the vertebræ following gonorrhœal rheumatism, Bradford, E. H., 698; scarlatina and diphtheria, Whitney, J. O., 711; case of typhoid fever, Bolles, W. P., 736; typhoid fever, Crain, H. P., 738; the Memphis yellow fever of 1879, Thornton, G. B., 787.

Generative System. Retroversion of uterus, with complications, Hodges, E. T., 24; recent progress in gynæcology, Baker, W. H., 51; fibroid tumor, Warren, J. H., 105; case of thrombosis following the operation for laceration of the cervix, Davenport, F. H., 161; acute miliary tuberculosis of the uterine muscular tissue, Sabine, G. K., 201; report of eight cases of uterine fibroids, remarks upon the same, Denveer, A. Van, 467, 518; accidental intra-uterine injection, Abbot, S. L., 523; a peculiar condition of the cervix uteri which is found in certain cases of dystocia, Hosmer, A., 523; absence of the lochial discharge, Baker, L. J., 566; fibrous tumor of the uterus healed by electrolysis, Bixby, G. H., 594; six cases of mechanical dysmenorrhœa, Hardon, V. O., 648; cancer of the uterus, Baker, W. H., 665; dermoid cyst of the ovary, Baker, W. H., 686; electrolysis of uterine fibroids, Cutter, E., 677.

Gleason, J. C. A medico-legal case of abortion followed by the conviction of the accused abortionist, 185.

Goss, F. W. The effects of an overdose of gelseminum sempervirens, 16, 308; embolism of the pulmonary artery, 663.

Great Britain. Great Britain and the United States, 348.

Green, J. O. Purulent inflammation of the middle ear, 772; recent progress in otology, 911.

Greenleaf, C. B. Compound comminuted fracture of both legs; primary amputation of the right leg; secondary amputation of the left leg on the forty-eighth day; death, 827.

Hammond, W. A. Opinion on Dr. Hammond's case, McCrory, G. W., 402.

Hardon, V. O. Six cases of mechanical dysmenorrhœa, 648.

Harlow, J. M. Placenta prævia, twins, 273.

Hastings, W. H. H. Fractured tibia, with repair, in an aged person, 308.

Hayden, D. H. Recent progress in the treatment of children's diseases, 87, 117.

Heflinger, A. C. Medical and surgical notes, U. S. Naval Hospital, Chelsea, 172.

Henderson, T. Compound dislocation of right ankle-joint, 402.

Herrick, S. S. Yellow fever, 247, 288.

Hewlett, F. V. P. Criminal use of chloroform, 812.

Hills, W. B. Recent progress in medical chemistry, 267, 304.

Hodges, E. T. Retroversion of uterus, with complications, 24.

Hodges, R. M. Remarks on strangulated inguinal hernia, 75; stricture of the œsophagus, 698.

Holton. Thrombosis, 758.

Holmes, H. Puerperal convulsions, 808.

Homans, C. D. Syphilitic necrosis of the frontal bone, 311.

Homans, J. Abdominal tumor, 697.

Hosmer, A. A peculiar condition of the cervix uteri, which is found in certain cases of dystocia, 523; pad for umbilical hernia in infants, 594; a case supposed to be phlebitis of the lungs, 726; another speculum ani, 750.

Hunt, D. Conservation in the medical profession, 23.

Hunt, J. Empyema in an infant aged thirteen months cured by aspiration, 711.

Hygiene, Health, and Boards of Health. Wisconsin Board of Health report, 29; national, state, and local boards of health, 131; the National Board of Health, 130; quarantine versus disinfection, 204; Mystic Pond water, 244; flushing of soil-pipes and traps, Crehore, C. F., 392; the demand for a national board of health, 418; the National Board of Health, Bowditch, H. I.,

421; sewerage in France and England, Sturge, W. A., 562; the report of the Philadelphia Board of Health, 632; Dr. Lyon Playfair on public health, 702; the conference of health boards at Nashville, 703; the National Board of Health, Cabell, J. L., 710; Health Primers, 739; a circular from the Massachusetts State Board of Health, 740; shall Lynn establish a board of health, 849; the Lynn Health Board, 896; sanitary organization of nations, Bowditch, H. I., 884; National Board of Health, Folsom, C. F., 927.

Ingalls, W. Surgical cases of Drs. Ingalls and Gay, 759.

Instruments and Apparatus. Pendulum myograph, Putnam, J. J., 198; apparatus for perimysnographic measurements, Bowditch, H. P., 197; Dedbeuf's colored prisms, Jeffries, B. J., 240; plaster-of-Paris jackets, Cowdrey, A. H., 273; a plea for the lancet, Buckler, T. H., 435; another speculum ani, Hosmer, A., 759.

Jacobi, A. Hæmatoma of the facial region, 675; fracture of the clavicle, cervical abscess, empyema, 675.

James, W. Function of membrana tympani in informing us as to our position with regard to objects around us, 130.

Jeffries, B. J. The colored prisms prepared by Dedbeuf to correct color-blindness, 240; color-blindness, 625.

Jurisprudence. A medico-legal case of abortion, followed by conviction of the accused abortioner, Gleason, J. C., 185; cloth containing arsenic, Wood, E. S., 197; medico-legal note, delayed shock, 212; corporal punishment, Marsh, B. P., 248; the evidence of still-birth, Abbott, S. W., 276, 296, 325; damages, 287; medical expert testimony, what it is and what it should be, 312; anatomical evidences of abortion, Tower, C. C., 332, 362, 402; damages for fracture, 6; 580; sudden death from injury, 633; criminal use of chloroform, 822.

Keyser, P. D. The treatment of color-blindness by the use of a solution of fuchsine, 70.

Knight, F. I. Recent progress in the treatment of diseases of the throat, 192, 239; abscess of the liver, 608.

Lester, E. C. Code of ethics, 708.

Levis, R. J. The treatment of fracture of the lower end of the radius, 758.

Local Injuries. Old dislocation of the thumb, Cheever, D. W., 3; fracture of the outer condyle of the humerus, and anchylosis, Cheever, D. W., 4; old impacted fracture and dislocation of the femur, Blaisdell, W. C., 24; abdominal wound, with protrusion of the omentum, Blackmer, J., 36; injury of the skull, Wright, J. H., 55; fractured tibia, with repair, in an aged person, Hastings, W. H. H., 108; compound dislocation of right ankle-joint, Henderson, T., 462; punctured wound of the abdomen, and colon, Wright, T. R., 615; sudden death from injury, 633; fracture of the clavicle, Jacobi, A., 675; treatment of fracture of the lower end of the radius, Levis, R. J., 756; compound comminuted fracture of both legs, Greenleaf, C. B., 847.

Locomotion, Organs of. Talipes equinus, with contracted knee and hip, Cheever, D. W., 204; hip disease, Putnam, C. P., 658.

London. The London hospitals, Wheeler, J. B., 637.

Loomis, A. L. Cardiac hypertrophy and dilatation, with probable aneurism of the thoracic aorta, 177.

Lyman, G. H. Cases in the service of Dr. Lyman, 285; aneurism of the coeliac axis, 349; enlarged prostate, dilated and hypertrophied bladder, 770; chronic parenchymatous nephritis, hydronephrosis, 879; slight perineal lacerations, 881.

Lymphatic System. Lymphadenosis, with brown pigmentation of skin, Child, W., 634.

Lynn. Shall Lynn establish a board of health, 849; the Lynn health board, 896.

McCrary, G. W. Opinion on Dr. Hammond's case, 462.

Mann, E. C. The psychological and pathological nature of general paralysis and its treatment, 11.

Marble, J. O. Icterus neonatorum, recovery, 140.

Marsh, B. P. Corporal punishment, 248.

Martin, H. A. Jaborandi, 126.

Mason, A. Santa Barbara, 58.

Materia Medica and Therapeutics. The effects of an overdose of gelseminum sempervirens, Goss, F. W., 16, 308; rubber bandages, Emerson, E. W., 57; Santa Barbara, Mason, A., 58; salicylic acid and salicylate of soda in treatment of acute sciatica and facial neuralgia, Abbot, S. L., 83; jaborandi, Martin, H. A., 126; summer climate of Bethlehem, N. H., Geddings, W. H., 155; alcohol, Baker, L. M., 161; free quinine, 168; guarana, Bolles, W. P., 198; opium habits (pseudo-antidotes), Abbott, S. W., 272; the discovery of anæsthesia, 315; recent progress in therapeutics, Amory, R., 407, 443; Santa Cruz, Cal., in regard to health, Anderson, C. L., 463; fibrous tumor of the uterus healed by electrolysis, Bixby, G. H., 594; the climate of Northolf, Cal., 710; quinine, Nichols, S., 737; experiments upon the strength of antiseptics, Cabot, A. T., 755; anæsthesia under pressure, 756; a new and cheap water-proof paper, 783; criminal use of chloroform, 822; the new anæsthetic, hydrobromic ether, 862.

Medical Schools and Colleges. The medical education of women, 67; women at Zurich, 212; the schools, 278; female medical students, Rose, E., 460; medical education in New York, 487; preliminary examinations, 528; the Harvard Dental School, 558; women at Zurich, Putnam, J. J., 567; the St. Louis College of Physicians and Surgeons, 607; Harvard Medical School, list of graduates, 660; Rush Medical College, Chicago, 708.

Medicine, Practice of. Conservatism in the medical profession, Hunt, D., 23; admission of women into the Massachusetts Medical Society, 525, 679, 744; medical education of women, 67; changes in medical practice, Allen, N., 472; medical report of the Reformatory Prison for Women, 475, 486; the experiences of a successful practitioner, 532, 852; code of ethics, Lester, E. C., 708; are women eligible to the Massachusetts Medical Society, Dwight, T., 709; the Pea Ridge practitioner again, 751; women and the medical society, 850.

Memphis. The yellow fever in Memphis, 384; letter from Memphis, 388; Memphis to be transformed, 888.

Metric System. What we have to meet, 37; objections to the metric system, Baldwin, J. F., 391.

Mind. The psychological and pathological nature of general paralysis and its treatment, Mann, E. C., 11; lunacy reform, 167; private asylums, 243; report of the Pennsylvania Hospital for the Insane, 1878, 277; lunacy reform, Seguin, E. C., 319; Utica Lunatic Asylum, 570; recent progress in the treatment of mental diseases, Fisher, F. W., 620, 655; care of the insane in Massachusetts, Channing, W., 790; uræmic apoplexy, 875.

Minot, F. Uræmic apoplexy, 875.

Mosher, E. M. Medical report of the Reformatory Prison for Women, 475.

Mundé, P. F. Twins and Cæsarean section, 747.

Navy. Yellow fever in the United States Steamer Plymouth, 141; surgeon-general United States navy, 696.

National Board of Health. The National Board of Health, 853.

Nervous System. Hysteria, Cheever, D. W., 4; infantile paralysis, Cheever, D. W., 291; the psychological and pathological nature of general paralysis and its treatment, Mann, E. C., 11; acute sciatica and facial neuralgia treated by salicylic acid and salicylate of soda, Abbot, S. L., 83; case of anterior spinal paralysis with formation of vacuoles in the ganglion cells of the spinal cord, Edes, R. T., 105; specimens from medulla oblongata of a patient who died of hydrophobia, Fitz, R. H., 197; two cases illustrative of two points in electro-therapeutics, Rockwell, A. D., 205; opium habit, Abbott, S. W., 272; pseudo-hypertrophic paralysis, Child, W., 288; infantile paralysis, Cheever, D. W., 291; injury to ulnar nerve, Putnam, J. J., 307; a new adjuvant in the treatment of writer's palsy, Putnam, J. J., 320; recent progress in the pathology and treatment of diseases of the nervous sys-

tem, Putnam, J. J., 336; three cases of cerebral meningitis from different causes, Webber, S. G., 357; pseudo-hypertrophic paralysis, 390; hypertrophy of nerve tissue in America, 606; infantile paralysis, Bradford, E. H., 627; tubercular meningitis, Ayer, J. B., 663; pseudo-hypertrophic paralysis, Webber, S. G., 490; hypertrophy of nerve tissue in America, 606; two cases of chorea in the kitten, Putnam, J. J., 690; apoplexy in a boy fifteen years old, Tyrrill, 738; effusion of blood into the left hemisphere and lateral ventricle, Ellis, C., 876; uræmic apoplexy, Minot, F., 875; puerperal convulsions, 808.

New Orleans. Letter from New Orleans, Herrick, S. S., 249.

Nichols, A. H. Strangulated hernia unattended by the usual characteristic symptoms, 877.

Nichols, S. Quinine, 737; peritonitis, 738.

Nose. Nasal polypi, Cheever, D. W., 292.

Nurses. Directory for nurses, 741, 750; Boston City Hospital training school for nurses, 816.

Orthopedic Surgery. Recent progress in orthopedic surgery, Bradford, E. H., 545; club-foot cured by mechanical treatment alone, Bradford, E. H., 662; hints on the diagnosis and treatment of club-foot, Brown, B., 715; talipes equinus, with contracted knee and hip, Cheever, D. W., 294.

Otis, F. N. Clinical lectures on the physiological pathology of syphilis, 385, 427, 611, 643, 683.

Palmer, J. A., Jr. Toad-stool poisoning, 301; poisonous mushrooms, 652.

Parks, E. L. Dystocia from dorsal displacement of the arm, 102.

Pathology. Anatomical changes caused by septicæmia, and pyæmia, Cutler, E. G., 145; fibroid tumor, Warren, J. H., 165; specimens from medulla oblongata of a patient who died of hydrophobia, Fitz, R. H., 197; microscopic specimens from tumor of mouth, Warren, J. C., 201; recent progress in pathology and pathological anatomy, Fitz, R. H., 729, 766.

Philadelphia. Surgical notes, 601; the report of the Philadelphia Board of Health, 632.

Physiology. Animal temperature, Shattuck, F. C., 59; influence of respiration upon the pulmonary circulation, Bowditch, H. P., 190; function of membrana tympani in informing us as to our position with regard to objects around us, James, W., 199; the healing of arteries, 242; Mr. Bergh and New York vivisectionists, 559.

Pierce, J. G. Amniotic fluid, 288; unusual vomiting, 678.

Pittsburgh. Diphtheria in Pittsburgh, 671.

Playfair, L. On public health, 702.

Poisons. The effects of an overdose of gelseminum sempervirens, Goss, F. W., 16, 308; drunkenness in parents, Brown, F. F., 271; toad-stool poisoning, Palmer, J. A., Jr., 301; a case of aconite poisoning, Carleton, C. G., 544; morphine poisoning, 631; unusual effect of a hypodermic injection of morphia, 619; poisonous mushrooms, Palmer, J. A., Jr., 652; morphine poisoning, Courtenay, 709; a case of belladonna poisoning, 805.

Porter, C. B. Urinary calculi, 661.

Post, M. H. Poisoning by corrosive sublimate and by carbolic acid, 781.

Pregnancy, Affections connected with. Recent progress in obstetrics, Richardson, W. L., 19; cases of midwifery, Ayer, J., 23; Cæsarean section, Williams, H., 100; dystocia from dorsal displacement of the arm, Parks, E. L., 102; case of obstinate vomiting in pregnancy, Van Slyck, D. B., 122; difficult labor, Wakefield, I. F., 213; the evidence of still-birth, Abbott, S. W., 259, 296, 329; turning versus the long forceps, 272; placenta prævia, twins, Harlow, J. M., 273; amniotic fluid, Pierce, J. G., 288; anatomical evidences connected with abortion, Tower, C. C., 332, 362, 402; amniotic fluid, Welles, D. E., 391; a peculiar condition of the cervix uteri which is found in certain cases of dystocia, Hosmer, A., 523; two cases of labor, the face presenting to the pubes, 596; tubal pregnancy, Wellington, W. W., 624; a fatal case of puerperal disease, Richardson, W. L., 625; fatal puerperal disease of doubtful character and origin, Edes, R. T., 626; cause of puerperal convulsions, Williams, E. T., 735; twins and Cæsarean section, Mundé, P. F., 747; child-birth in American women, 823; slight perineal lacerations, Lyman, G. H., 881; puerperal convulsions, Holmes, H., 868; partial review of two thousand cases of midwifery, Ayer, J., 859, 899.

Providence. Letter from Providence, 35.

Putnam, C. P. Hip disease, 659.

Putnam, J. J. Pendulum myograph, 198; injury to ulnar nerve, 407; a new adjuvant in the treatment of writer's palsy, 329; recent progress in the pathology and treatment of diseases of the nervous system, 336; women at Zurich, 567; two cases of chorea in the kitten, 690.

Respiratory System. Removal of a shawl pin from the trachea, Caswell, E. T., 47; a case of chronic catarrhal pneumonia, Bowers, W. P., 48, 78; case of membranous croup, Van Slyck, D. B., 124; dilated bronchi, Ellis, C., 162; pharyngeal respiration, Garland, G. M., 198; recent progress in the treatment of diseases of the throat, Knight, F. I., 192, 230; influence of respiration upon the pulmonary circulation, Bowditch, H. P., 199; a case supposed to be phlebitis of the lungs, Hosmer, A., 726; Cheyne-Stokes respiration, Edes, R. T., 734; empyema in an infant aged thirteen months cured by aspiration, Hunt, J., 711; croupous pneumonia and its relation to pulmonary phthisis, Tyndale, J. H., 907.

Richardson, W. L. Recent progress in obstetrics, 19; a fatal case of puerperal disease, 625.

Rockwell, A. D. Two cases illustrative of two important points in electro-therapeutics, 265.

Rose, E. Professor Rose and Zurich female students, 490.

Sabine, G. K. Acute miliary tuberculosis of the uterine muscular tissue, 201.

St. Louis. Letter from St. Louis, 210, 894.

Seguin, E. C. Lunacy reform, 319.

Shattuck, F. C. Animal temperature, 59.

Smith, F. L. A case of belladonna poisoning, 895.

Societies. Suffolk District Medical Society, 23, 161, 627, 659; Rhode Island Medical Society, 25, 484; American Neurological Association, 54; Middlesex South District Medical Society, 55; New Hampshire State Medical Society, 92, 456; Missouri State Medical Society, 94; Norfolk District Medical Society, 122; American Gynæcological Society, 127, 448; Boston Society of Medical Sciences, 197; American Otological Society, 207; American Laryngological Association, 192; Massachusetts Medico-Legal Society, 236, 312; Middlesex East District Medical Society, 271; Association of American Medical Colleges, 278; Boston Society for Medical Improvement, 307, 636, 770; American Dermatological Association, 341, 375; British Medical Association, 346; 563; 603; Boston Society for Medical Observation, 412, 661; American Academy of Medicine, 457; New Orleans Sanitary Association, 488; Obstetrical Society of Boston, 523, 594, 624, 914; New York Academy of Medicine, 525, 550; British Medical Association, 563, 603; Roxbury Society for Medical Improvement, 734; Connecticut River Valley Medical Association, 737; Massachusetts Medical Society, 744; American Public Health Association, 777, 806, 840, 847; American Academy of Dental Science, 777; New York County Medical Society, 778; Women and the Medical Society, 850; Boston Society for Medical Improvement, 875; a revival in society work, 887; St. Louis Obstetrical Society, 919.

Starr, L. A case of fatal ileo-cæcal intussusception, 436.

Stedman, C. E. One hundred and fifty cases of typhoid fever, 409; two cases of labor, the face presenting to the pubes, 596.

Stevens, E. H. Interstitial nephritis, 662.

Sturge, W. A. Sewerage in France and England, 592.

Surgery. Caries and amputation of the thigh, Cheever, D. W., 1; necrosis of ungual phalanx, Cheever, D. W., 4; removal of a hair-pin from the female bladder, of a shawl-pin from the trachea, Caswell, E. T., 47; Cæsarean section, Williams, H., 100; cases of osteoclasis, Cabot, A. T., 217; repair after excision of the hip, Cheever, D. W., 310; optico-ciliary neurotomy, Wadsworth, O. F., 310, 773;

bone fractured by the osteoclast to correct the deformity of rickets, Cabot, S., 311; Listerian system of dressing wounds, 563; litholapaxy, Bigelow, H. J., 539; surgical cases at the Children's Hospital, Bradford, E. H., 706; operation on the inverted head, Warren, J. C., 662; the treatment of fracture of the lower end of the radius, Levis, R. J., 758; surgical cases of Drs. Ingalls and Gay, 779; Gritti's super-condyloid amputation of the thigh, Child, W., 783; skin-grafting, Brown, W. S., 829; a case of cystotomy for cystitis, Barss, J. R., 797; perforation of the bladder through the rectum, Beach, H. H. A., 878.

Teevan, W. F. Litholapaxy, 748.
Thomson, W. H. The communicable fevers and their treatment, 323, 355.
Thornton, G. B. The Memphis yellow fever of 1879, 787.
Tower, C. C. Anatomical evidences of abortion, 332, 352, 402.
Tumors. Sarcoma of the leg, Bigelow, W. S., 23; fibroid tumor, Warren, J. H., 165; microscopic specimens from tumor of mouth, Warren, J. C., 201; growth in the antrum, Cheever, D. W., 233; large cystic tumor of kidney, Tupper, A. M., 400; abdominal tumor, Homans, J., 637.
Tupper, A. M. Large cystic tumor of kidney, 400; unusual effect of a hypodermic injection of morphia, 619.
Tyndale, J. H. Croupous pneumonia and its relation to pulmonary phthisis, 207.
Tyrrill. Apoplexy in a boy fifteen years old, 738.

Urinary System. Two cases of cystinuria, Wood, E. S., 4; a case of cystinuria, with renal calculus, Whitney, W. F., 23; removal of a hair-pin from the female bladder, Caswell, G. T., 47; paralysis of the bladder, Adams, B. F. D., 50; large cystic tumor of kidney, Tupper, A. M., 400; cancer of kidney, Doe, O. W., 412; recent progress in urinary surgery, Curtis, T. B., 479; litholapaxy, Bigelow, H. J., 539; the new treatment of stone, 557; urinary calculi, Porter, C. B., 641; urethral calculus, Warren, J. C., 662; interstitial nephritis, Stevens, E. H., 692; probable acute nephritis, Ellis, C., 695; litholapaxy, Teevan, W. F., 748; enlarged prostate, dilated and hypertrophied bladder, Lyman, G. H., 770; a case of cystotomy for cystitis, Barss, J. R., 797; chronic parenchymatous nephritis, hydronephrosis, Lyman, G. H., 879; perforation of the bladder through the rectum, Beach, H. H. A., 878; uræmic apoplexy, Minot, F., 875.

Van Derveer, A. Report of eight cases of uterine fibroids, with remarks upon the same, 467, 518.
Van Slyck, D. B. Case of obstinate vomiting in pregnancy, 122; case of membranous croup, 124.
Veterinary Medicine. Veterinary medicine, Billings, F. S., 507.
Vienna. Letter from Vienna, Williams, H., 100.

Wadsworth, O. F. Optico-ciliary neurotomy, 310, 773; recent progress in ophthalmology, 692.
